PARENT SURVEY

Dear parents/guardians,

Environmental print is the print all around us in our everyday life. The reading of signs and labels is an exciting stage as your child grows as a reader and writer. We will be doing many fun environmental print activities throughout the next three weeks. In the survey below, circle the response that most closely matches what you see your child doing, and return it to me by this Wednesday. Please add any other observations you wish to share on the back of the page. I will be sending this survey home again in three weeks. Note any additional progress you see at that time. Thanks so much for your help in this endeavor!
