Subject: FYI Information

Here is a website that has CGI word problems for first graders. Lower elementary use them as they are, upper elementary change the numbers.

http://www.murrieta.k12.ca.us/buchanan/rnaerbo/pages/download_math_prob1.htm

Attached are some website which have examples of the different types of "ranking problems" we worked with on November 17th.

http://csi.boisestate.edu/dmt/cgi_word_problems.htm

Also, for those of you who have Parent-Night packets. After you have your parent night, please either make me copy or give me the originals of the sign-in sheet and the evaluations. Because these packets were paid for by another grant we need this information.

I am in Pierre this week for about 3 days. I am taking the questions I have received via e-mail to at least make them aware of the concerns. I also have an e-mail into Melody Shoppe (sp?) concerning some financing for Graduate Programs. Most times there is not any financial aid other than taking out a student loan and seeing if the school has any money to help pay for a class (even 1 class would help). The one option there is will be the "tuition reduction" policy in place to help pay for "on-campus" classes. The website where you can access this form is available. Bookmark it until there is need to use it.
